## M/Y Orca

---

This Princess 43 lying in Port Vauban is in excellent condition, with an impressive specification.

Upgraded with the larger Cummins QSB 6.7 (2 x 550 hp diesel engines) along with a 'Seakeeper 5' zero speed stabilizer.

Orca benefits from an integrated bow thruster/main engine control system via the Cummins joystick control, giving generally better & smoother control of the bow.

The meticulous owners have taken great care and have a full service history of the vessel. All the main components have been serviced every year in line with manufacturers service schedule, along with a full hull & superstructure polish. The current (second owners) purchased the boat from Princess Motor Yacht sales in Spain and bought her to France in 2018.

Orca underwent a coppercoat treatment to the hull in 2016, which is a great alternative to the expensive annual anti-fouling paint. Its made up of epoxy resin & pure copper coat powder, providing excellent protection for the hull for at least 10 years before the first touch ups are needed.

The 15m x 5m berth on Quay One, Port Vauban is available by separate negotiation.

## Manufacturer Provided Description

#### Princess Description:

The iconic Princess 43 delivers exceptional sea keeping and performance. Within her sleek, well-honed lines the spacious flybridge enjoys a generous seating and dining area, whilst the flexible forward seating converts into a sunbed. Her power to thrill continues inside her voluminous interior where an unparalleled experience and sense of space awaits.

Beautifully styled throughout, the 43 blends inviting comfort with cutting-edge technology. The spacious main deck features a well-equipped galley with a generous seating and dining area aft that can be converted to a double berth for occasional guests. Below deck there are two luxuriously-appointed en suite cabins, a forward master stateroom and a twin guest cabin that can be specified with electrically-sliding berths to convert into a double when required. She's a class-leading yacht that continues to set the standard.
